Dry Gulch Irrigation Company,  
Attn: Louie Galloway, Secy.,  
Roosevelt, Utah

RE : GENERAL

Gentlemen:

Mr. Samuel Snyder of Roosevelt, in a written communication represented to this office that he had granted to the Dry Gulch Irrigation Company a right-of-way for canal across his land, in return for which Dry Gulch Irrigation Company agreed to install a headgate for his use. He states that in spite of the fact the canal has been built more than a year since, the headgate has not been installed in accordance with the agreement.

I appreciate the fact this is not the business of this office, but to state that in so many words to Mr. Snyder would probably be considered in the light of an affront or slight. If therefore, you can give me a statement of the facts for the record and a reply, I shall appreciate it.

Yours very truly,

T.H. Humpherys,  
STATE ENGINEER
